No 3152 —TWELFTH YEAR BUENOS AYRES, TUESDAY, NOVEMBER 19, 1872. CIRCULATION, 3000.

MAUA BANK

101 & 103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferible securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months; the depositors being allowed to retire at any time, by means of cheques, part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

No expense has been spared in adopting the latest improvements in Steam-ship Building, and it is believed that these vessels combine, in an uncommon degree, the qualities essential for passenger purposes, while, at the same time, they contain ample provision for the carriage of merchandise.

The speed of the Steamers comprising their fleet, is expected to exceed the average of any other line of Atlantic Steamers, and from the fine model of the vessels, and the uniformity in their build, coupled with great steam power, regular and swift passages are anticipated.

The Vessels are divided into water-tight compartments, and every precaution is taken to ensure safety.

The SALOONS

Will be found to afford unusual space, the whole breadth of the ships being devoted to this purpose; they are light, lofty, well-ventilated, and lavishly furnished, whilst the requisites so necessary to the comfort of Passengers in the colder portions of the year, are amply provided by an extensive arrangement of hot-water pipes and capacious fire-grates. Being placed amidships, the saloons are removed from the noise and motion experienced in the after part of the vessel.

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 duertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 5 days: 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

Jose M. La Fuente,
Secretary.

Ferruginous Gin.

ANALYSIS
BY
Professor Kyle.

The Iron exists in the form of a protosalt, one fluid ounce of the Gin containing 3-10ths of a grain of Protoxide of Iron. The Ferruginous Gin may therefore take its place amongst the best preparations, and be employed with advantage where the administration of a tonic alcoholic stimulant is indicated.

Agradecimieto.

El abajo firmado agradece infinitamente al Sr Jose Charller, que vive en la calle Belgrano No 675 por haber sanado a mi mujer que sufria dolores rumatismales que la obligaron a estar en cama cuatro meses al año, durante 5 años. El 20 de Julio de 1871 todos los vecinos han desesperado de mi mujer si yo pedia recurso al remedio sin igual como lo han llamado las personas abajo mencionadas como yo, despues de ocho dias de tricciones. Los Sres Alvarez Valerio, Uruguay num 336; Goene Avesse, Paraguay 236, Lagaride, Cuyo num 5, son testigos que como yo dan toda prueba de su eterna gratitud, Sr. Don Jose Charller por haber sido sanados radicalmen e pues, nada hemos vuelto a sentir hasta la fecho. It being an admitted fact, that "Money make money," the object of LA BIENHECHORA could not be better, since it opens a vast Saving Bank for the surplus or savings of the Public and by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband the small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose own investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

AN EXCHANGE OF DISEASES.—In relieving the disease Mercury begets another If it suppresses acute liver disease, or syphilitic ulceration, or virulent eruption, it substitutes therefore some chronic malady very difficult to cure. Contrast its effects with that of Bristol's Sarsaparilla. This pure vegetable disinfectant contains no element that is not revigorative, cleansing, and anti-septic. It does not expel poison by poison. Its operation is kindly, gentle, and in harmony with the efforts made by Nature to rid herself of the virus of disease. To this fact must be attributed the sound and vigorous condition in which it leaves the skin after eradicating its ailments. cj—n19

THE LOSS OF THE TACORA.

MAGNETIC MOUNTAINS NEAR MALDONADO.

It has been a subject of surprise to many people that Capt. Stewart, who is considered one of the most experienced and careful sailors in the Pacific Company's service, should have been so convinced that he was several miles from land just before the Tacora ran on Cape St. Mary. There is, however, an extraordinary revelation by Mr. James Oliver of Fray Bentos, published in the Montevidean papers of Saturday, which seems to bear evidence of trust-worthiness and, if based on fact, would go far towards explaining the cause of the wreck of the fine new steamer in question.

Mr. Oliver, we need hardly premise, is a very old resident in the River Plate, with varied experiences by flood and field, and the story of his hair-breadth escape from shipwreck on Cape St. Mary is not now told for the first time, since he previously endeavored, without success, to make it known to the nautical would through the British Admiralty.

In the year 1848 (as the narrative runs) the schooner Miltiades, belonging to Mr. John Lawes of Montevideo, was fishing for seals, in the employ of Mr. Samuel Lafone, between Lobos island and Castillos, with 4 men on board, of whom James Oliver was one. On the evening is question, about 4 o'clock if fell quite calm, with no current running either up or down, the vessel lying on the still bosom of the sea in 19 fathom of water, about 5 miles off-shore.

"At 8 p. m. going on deck, the moon being nearly full and a bright moonlight night, I thought we were much nearer shore, and again heaving the lead found the same depth of water, 19 fathoms. I soon perceived that, although there was no current the vessel was drifting towards shore about a mile an hour.

"Calling my comrades I succeeded by means of oars in turning the prow of our vessel again seaward, but three several times it swerved again round towards land. I may remark that we had 2 anchors and 200 fathoms of chain cable in the prow. I was unwilling to cast anchor in such deep water, and kept the lead going while the vessel drifted towards shore till luckily a light breeze sprung up from land and carried us out again to sea.

"If it had been a dark night we should probably have driven ashore in another hour, perfectly ignorant of our danger or of the mysterious power that wafted us, without any current, landward.

"The occurrence impressed me so much that on my return to Montevideo I reported it to the Topographic Board, but no notice was paid it, for aught I know. Subsequently, in 1857, Mr. William Hammett who had been on the Topographic committee informed me that magnetic stones were found in the Sierra de Animas, running northward from Montevideo, and this at once appeared to me an explanation of the mystery.

"In 1866 I wrote to the British Admiral of the station on this subject, but perhaps my letter did not reach him. In later times I wrote to Professor Agassiz, but with no better success. Now, that the Tacora wreck revives interest in this question I think it right to give the above statement of facts that I leave scientific men to decide upon."

Such is in brief the tenor of Mr. Oliver's letter, and those of our readers who may have travelled in the interior of Banda Oriental will perhaps remember the remarkable Cerro de Campana, near Villa Melo, where the stones appear of the magnetic character alluded to, and when struck give out the clear, metallic ring of a finely toned bell. It is, meanwhile, a pity that the Royal Geographical Society or the British Admiralty do not send out a scientific commission in this matter. How do we know but the Borneo was lost the same way, and that others may not follow the Tacora?

MONTEVIDEO.

STANDARD Office.
Saturday, 16th.

A decree has been published at Rio Janeyro, under date Nov. 8th whereby the Brazilian Post-master General notifies the Pacific steamers that if they submit to certain new regulations down here, the said Pacific steamers will be deprived of the packet-privilege which allows them to receive coal duty-free.

Rumors are current here that next packet from England will bring out the solution of the postal difficulty, but those people who think that such solution must be at the cannon's-mouth know very little of the march of events or the principles of international law. The Douro was this morning struck off the list of privileged packets in the same way as her predecessors.

The Government has not turned a deaf ear to the complaints about repeated wrecks occurring from want of buoys and lights. A decree was issued yesterday for Lieut. Villalpando to proceed immediately in the steamboat Rayo, to lay down buoys at Point Buen Viaje, Lobos bank, and on the two spots where the America and 25 de Noviembre went down. The contractor of the English Bank light has also been ordered to put down buoys there. By a strange coincidence, the first news this morning was, that the Italian barque Senno was aground on the English bank, with a cargo of coal from Cardiff to Montevideo.

The Douro passengers got a dreadful wetting going on board last evening; it rained cataracts, and the sea was so rough that the tug-steamer could not get rightly alongside. One of the Douro officers, lashed to the gangway, tried to get up the passengers in a cradle; one lady was rolled up like a baby and passed from hand to hand with great care till safely placed on deck.

The rainfall least night could not have been less than an inch; it is a great god-send to the quinteros and farmers.

A despatch of the 'suaviter in modo' style from the Brazilian Minister to the Government, is published this morning relative to the insult some time ago offered to Brazilian officers of the corvette Araguary. The Emperor says he will overlook the matter this time as the Oriental Government declares "its disapproval of the act"; but as the offenders have not been punished the Brazilian Government does not feel entirely satisfied and has issued orders to its officers that in future they may use force in repelling insults of this kind if the attempt be repeated.

No one has been named to succeed Dr. Julio Herrera Obes, but Mr. Oscar Ordeñana, formerly envoy to Rome; is to act as Foreign Minister *pro tem.*

An old lady named Carmen Aguirre de Martinez died yesterday in her 91st year; she was of Argentine extraction, and a widow.

The Board of Health has issued an order for the Medicos de Policia in each department to go about and vaccinate all the people they can, at the suggestion of the Rural Society; but if anybody refuses to be vaccinated they are not to put him in the stocks or such like, but merely to seek by force of logical reasoning to persuade recalcitrants that Dr. Jenner's invention is exceedingly good for their health.

The editor of a paper in Paysandu has been found guilty of slander against Mr. McEachen, and sentenced to pay all costs, suffer 15 days imprisonment, and be prevented for six months from continuing his labor of love and literature.

The authorities are busy with carts and railway waggons conveying earth from Bella Vista to fill up the vacuum behind the sea-wall, commonly known as Playa de la Aguada. The Railway Company is also making a new cutting from Bella Vista to Paso Molino, nearer the water's edge, for the line at present runs along the road and shakes the roofs of the azotea houses so, that they rain in. The 6 o'clock morning train that goes out to Santa Lucia is usually full of passengers. People are asking why the new section to Juan Chaso is not opened, but it is probable that the election agitation has driven it out of the Minister's head. If they open it next week they will probably find plenty of wool on the other side of the river, as the bullock-carts cannot cross the Santa Lucia for some time after these rains.

A gentleman named Alsina publishes a notice in the morning papers that the auctioneers cause him endless annoyance by posting bills on his wall. He insinuates very decidedly that he will punish the offenders as they do the process-servers in Galway, the next time he catches them.

Messrs. Madero and Pedriel are the "sensation" auctioneers of the period; they describe as a "feudal castle" a house alongside of Playa Ramirez, the owner of which is going to Entre Rios.

It looks very much like more rain. Ballo en Maschera was postponed last night and will be given to-night. Don Pasquale is advertised for to-morrow night, both prime-donne performing.

The man on the Cerro sweeps the horizon for the French packet.

PARIS GOSSIP.

(*From Our Own Correspondent.*)

M. About, finding the story of his arrest did not draw, has abruptly terminated it, doubtless to the relief of whoever had courage enough to peruse it. Personally he was well treated and—worse still for his newspaper—liberated. All this does not absolve Prince Bismarck from his presumption to arrest foreign editors who may have written against his handiwork, if he can catch them. Would he so lay violent hands on an Englishman or an American? In the case of the latter, where the 'Civis Romanus' doctrine is no joke, he would have a fleet of those monitors, warranted to sail wherever there was a heavy dew, around his Varzin mansion before he could cry 'peccavi.'

I had some hopes that France was served by her learned men; but since the Academy has commenced to debate the Alabama question, all faith is lost. Napoleon knew these magii well when, in his Egyptian expedition he ordered 'asses and savants to the rear.'

A few wrinkles for visitors to Paris. The delicious butter served in the hotels is colored yellow by a poisonous salt; the rich look of the soup is artificial; and the peculiar ammonical flavor of the cheese, that called Brie especially, is produced by a queerish process. Such are official revelations on the adulteration of food here.

There were 780 births in Paris last week, and as Eugene Pelletan claims all babies now born as Republicans, the first cries of the little strangers may be expected to be 'Vive la Republique!' perhaps 'Vive Gambetta?'—if the 'bambin' be precocious, a 'Vive Vermesch!'

'Remember, I know morality,' said an actress to Dumas 'fils.' 'Yes, madame, as robbers know the police,' was the reply.

Napoleon Wyse, an Irish gentleman, was invited by his sister, Madame Rattazzi, to visit her at Trouville, where she had taken a cottage. She telegraphed to a friend—'Everything is prepared; Napoleon can come.' Great excitement in the official world; the telegram was at last sent to M. Thiers, who is a great friend of Mme. Rattazzi's, and who laughed, and does still, at the 'scare' the telegram caused.

A short-sighted sportsman mistook through a hedge the brown gaiters of a companion for a hare, and fired. The wounded man received some pellets, and kicked with pain, at which the sportsman exclaimed, 'hold, gredin!' and sent the contents of the other barrel into the second gaiter, believing pussy was kicking too much.

The government avows it will not shrink from sending before a court-martial any important Communist who may yet be arrested, but none will be apprehended on unsupported denunciation. The Pardon Committee will not meet again till 5th October, so that no more blood will flow at the butts of Sartoy before then. There would be sound policy in a liberal leniency towards the Communists, and humanity, in remembering the wives and children, as well as of those rendered widows and orphans, by the barricades, the hulks, and New Caledonia.

The swallows have held their annual caucus meeting, and, preceded by a numerous advanced guard, made a cyclone movement over the house-tops and flew southwards. Two nights' sudden frost hastened their departure. As a write off, the chestnut roasters from Switzerland and Italy have arrived, and have re-occupied their old nests in the nooks of eating-houses and wine shops. They assert the chestnut crop never was so excellent at this season; but they make the same remark every year. It is a question of 'who'll buy my macaroni.' The leaves of the trees are falling somewhat prematurely, and, as if sorrowful for so doing, some trees are putting forth a few new tender leaves of hope. The avenue of the Champs Elysees is a vale of Vallombrosa with leaves, and the Marionette shows are going into winter quarters, that is, to be exhibited at childrens' evening parties with the whole strength of the orchestra—one artiste as musician and 'singing pilgrim.'

The 'alimentary clubs' owing to the dearness of provisions, are taking hold on the working population, who never can obtain so cheap or so well cooked food as these co-operative kitchens supply. Another innovation consists in landlords supplying heated air—laying it on like gas—to tenants for one half the price, to say nothing of the trouble saved, than they could do by the old plan. In the palatial unfurnished lodgings, the landlord heats the corridors, charging of course for the expense.

In the way of education, projects of reform are numerous. In the lyceums, the pupils in addition to being drilled in rifle and sword exercise, will march periodically to 'no man's ground' to practice the science of earthworks. Napoleon I. said the spade was as necessary to the soldier as his musket. A young professor of the University—M. Constuner proposes that 20 fathers of families should contract with him, or some other professor, for the education of their sons, taking the boys at ten years of age, and returning them to their fathers when men. The pupils would have all the comforts of a home, their peculiar tastes sought out and developed. Anything that would supersede the present mode of sending boys to a 'barrack' rather than to a boarding-school, would be a boon for France. The professional schools for girls in Paris now number 5; the pupils are extern, are admitted after a matriculate examination, and not being under 12 years old; the course of study extends over three years, and prepares the pupils to gain an honest livelihood as cashiers, clerks, wood-engravers, porcelain painters, dress-makers, needle-women, &c. Upwards of 120 girls have graduated in these schools within the last six years.

The Government is going in seriously for reforms. It has notified its clerks that one thing at least is expected from them—that of signing their names legibly. Those civil servants who will marry and, by giving hostages to fortune, do the State some service, will have a stronger claim for promotion than selfish bachelors. Abd-el-Kader's annual pension, for motives of economy, will be reduced one-half. Wonder, in thanking M. Thiers, will he commence his letter with a 'Praised be the Lord!'

Those Red Journals that adopted the Republican Calendar are giving it up and falling back on the 'old style.' It is whispered that M. Thiers desired such funning to cease; it is more probable the readers were confused between 'Vendemiaire, an 81,' and September, 1872.

The dog tax is to be trebled in case of evasion. Since it has been increased, the number of dogs never was greater. Wandering dogs are sent to the canine depot; if worthless, they are slaughtered after three days detention; and the better to secure the carrying out of this law, the chief of the depot is a member of the Society for the Prevention of Cruelty to Animals.

During the Reign of Terror, old ladies bought, to make curls, the hair of young females who were guillotined. It is viewed as an equal horror now to wear borrowed locks of a blonde color, such coming from the daughters of Germany, according to general gossip.

'I never see you now,' observed one friend to another; 'I rarely go out—live as lonely as Robinson Crusoe.' 'But he had a Friday at home,' was the retort.

A prison van, en route for a gaol, stopped at several police stations to take up passengers, when one of the secured observed, at that rate they would never reach the end of their journey.

EDITOR'S TABLE.

The French mail packet is in at last, and uncommonly seedy news she brings. Wool going to the canine race, and looking like lead, whilst tallow is melting down (2 francs) faster than ever it did in the "graserias" Hides are the only commodities that look like holding their own. This extremely bad news gave the produce markets such a shivering fit yesterday that, although the sun was strong, most of the brokers put on their top-coats, and even the buyers looked "cool as cucumbers," seeing that they will soon be able to do business on their own terms. The political news is not of much interest.

A kind subscriber living at Pavon sends us the following news—"Rosario is still going ahead (we never knew it otherwise, Ed.) We have our trams as well as Buenos Ayres, which are crowded at evening, up to the Plaza Lopez, where there is a very nicely laid out garden. The trains run every half hour from the Mole head. Property about there is going up; a small piece of 50 yards square, bought some years ago for £150 stg. is now offered for sale at 12,000 Bolivians; it belongs to the head butcher in town, Barrera. This has been a good season for estancieros; a great deal of the wool has been sent to San Nicolas, as there are few buyers in Rosario, the principal being Don Luis Lamas y Hunt, who bought up the best wools paying good prices, from 75 up to 90 Bols., the highest paid, and that was for the wool of Mr. Thomas Armstrong of Pavon, receivable on estancia. 'Capones pelados' have been sold at 14, 15 and 16 rls Bol. a head, for market use. The camps are fine, and we have had rain of late but want more. Wheat crops look prime up to this and promise a good harvest. The Bishop of Parana has been here; he has passed on to Don Carlos Casados's estancia."

Sunday was a half and half sort of day, gloomy in the morning, but very fine indeed at night. A regular 'burster of a "temporal" broke over the city about 3 o'clock a.m. and threatened at one time to blow the nightcaps off the sleeping citizens. In the suburbs small trees suffered, and in the Roads small craft were knocked about terribly, an English brig also going ashore above the Gas House.

The crowd of Italian immigrants landed on the Mole on Sunday was such as the most antiquated Buenos Ayrean cannot remember. The old pier was packed with them, and such was the squeeze that no one could fall into "the Hole." Order was well observed, nevertheless, though the shouting and clatter of tongues would have done honour to a Hen Convention. Some miserable wretch of a gossip set a report afloat about 2 o'clock that 50 of the immigrants had "touched bottom" and remained there, while coming ashore in a little steamer. There was not a word of truth in the rumour, but the most painful anxiety prevailed till it was found that all the immigrants had been landed safely.

The river rose with unparalleled force and suddenness on Sunday, and several small vessels in port got sadly put about. A cart landing coal from a lighter was hurled on shore and smashed into five hundred little bits; the horses were drowned, but the driver was saved and coal hauled in by the 'mud-larks,' who seemed to enjoy the rough day prodigiously.

The auctions of land on Sunday passed off well, though the weather interfered with some of them. Anyone requiring particulars will please turn over to our matter of fact column "on 'Change."

The *Capital* of Rosario was five years old on Friday last. We drink its health in a 'bumper' of Hesperidina, the last drop of moisture in our cellar, and which we purposely kept for the occasion. Many happy returns, colleague!

There is so little going on up at Rio Segundo that a hail storm on the Esperanza and St. Geronimo pattern has been invented up there, just to keep the place alive. Hail stones like duck eggs; roofs blown to the skies; thistle crops utterly ruined; several frogs drowned &c., but nobody of any consequence hurt.

There was much anxiety in town yesterday to know if the anticipated invasion of Indians at Rio Cuarto had come or gone. We have received no intelligence on the subject. The War Office is said to have taken precautionary measures, but that useful Department is always said to be doing something, what that something is Tom Walker, or Tom Jones either, would be puzzled to tell. The word 'Frontier' is now in such shocking odour that the bare mention of it gives a settler or an editor material for a nightmare. The commanders would give the kingdom for a horse, yet cannot get one.

The New York *Tribune* asks the following question:—

"A car in which were a bright little maiden and her mother came rushing into the Central Depot the other day, and there engines were tooting hideously, hackmen howling, and small boys of a dirty and fiendish aspect shouting 'Morning papers!' Is it any wonder that the little girl cuddled up to her mother and inquired with terrified awe—'Mamma, is this hell?' The same question suggested itself to a newly arrived subscriber on visiting the Court on a stormy bulletin day during the Franco-German war. We replied, 'Oh no! only Purgatory'—and it's a fact.

A disgusting affair has just come to light in San Juan, and has been published in the Mendoza papers, though those of the former city are silent. It appears there is a hotel in San Juan that has always been remarkable for the luscious quality of its soup. All the gourmets in the town lunched off the 'mulligatawney,' and grew so fat on it that their wives complained. Last month the 'cat got out of the bag'—the soup *was man soup*, made from human flesh!! The scare has been fearful. Every man who was ever inside that hotel is now branded as a cannibal, and almost looks like one, from the disgust and illness brought on by even thinking of the 'mulligatawney.' Some say the whole story is a magnificent 'lark,' which is not unlikely. It must be borne in mind, however, that some Lascar miscreants at Valparaiso were detected some time ago in the same horrible crime.

Writing of the 'empresarios' of the Bull Ring at Rosario the *Capital* calls them 'personas respetables.' What a funny language Spanish is; though, as a rule, the Dons are poor jokers, this is really a capital joke.

The *Mercurio*, called after the god of Commerce, first opened its pages to the Rosario world on Saturday last. It is a well got up sheet, with good type, fair paper, and a sound commercial programme. As such we take off our best hat, with our best Chesterfieldian bow, to it, and wish it every success.

Talking of new newspapers we heard a pair of unfeeling Bond Brokers make a wager the other day as to which of the two most overdone speculations of the day—newspapers and land—would burst up first. We tried to look as hurt and offended as we could, and made some sharp retort about Bond and Cedulas speculation, which a sense of delicacy prevents us giving verbatim. The brokers 'shut up,' but they booked the bet.

A morning colleague refers to some tremendous 'discrepancies' lately discovered in the Municipality accounts. The tax collectors are in the boiling water this time. Mr. Emilio Bunge and Dr. Canard have been named to investigate the affair, although some Aldermen are said to have been prodigiously anxious to 'make things pleasant' by the good old system of 'hush a by baby.' It appears the system of collecting the lighting tax for years past is badly in want of some light being thrown on it; and the back accounts of the Sereno tax are anything but 'all serene.'

Our exchanges from Jeddo contain the following:—

"Attempted suicide.—On the 23rd of last Japanese month a young girl attempted to commit suicide by throwing herself from the Rigoku Bashi. A boatman saw her, quickly rowed to the spot, and saved her. Government pats him on the back and says 'Well done my son.'

The Rio papers report a desperate scuffle at the Casino Theatre there. It began by the pit [ungallant spot] greeting Madlle Susanne with a shower of rotten eggs, potatoes, stones (oh! fie) orange peels etc. Poor Suzy had to run for it, and then the audience tackled the 'peelers,' seats were torn up; and the leader of the police was knocked head over heels by a chair thrown by a brawny arm at his skull, which was cracked in the collision with the 'silla.' The row ended somehow, as all mundane things do.

A New York paper records one of the saddest and most soul harrowing accidents we ever read of, the victim being the beautiful bride of an hour. This terrible tale of woe is enough to set one's teeth on edge for ever. Our contemporary tells the painful and touching story in the following feeling terms:—"A tale of incredible horror comes to us from Illinois. It is well for the journalistic mind that it is not often called upon to describe an event of such inky and unmitigated gloom. The time was August, the skies were fair, when, seated in a railway car, a bright, blooming, bashful, and beautiful young bridal pair went forth from Peoria on the first stage of that journey which ends, it may be, in the grave, or haply in Chicago. The husband of an hour was all pride and tenderness; the bride all bounet and blushes. As the slow train moved from the station, the fair young Being incautiously put her head out of the window, perchance to scent the morning breeze, like Hamlet's father's ghost, perchance to wave a last farewell to the weeping friends of her girlhood. Too, too fatal moment! A telegraph pole did not decapitate her;—no, ah no! That were joy compared to——Hastily bringing her head within the car, she buried an agonized face in her hands. The terrified bridegroom is said to have instantly expressed himself, with great presence of mind, in this touching and memorable language: "What was it, darling? What frightened it dear? Tell its own hubby! What makes it cry?" What, indeed, O vicious Fate! She had dropped a lovely and expensive set of teeth out of the window. She never smiled again—until she had seen a dentist."

The Courts have set free or commuted the sentences of a highly unpleasant number of 'accused' persons within the last week or so. Of course these fortunate fellows will return, or have already returned, to the respectable way of life natural to them; still, strange to say, "jimfiscation," "kleptomania' and other little peculiarities of the kind were never more rife than at present.

Mr. Lusetti, the rising Italian architect, has drawn out beautiful plans for the Hypothecary Bank, which he has promised to exhibit at Standard Court.

The old Convention is on its last legs, and there is a general cry of "shut it up!" "send the members to bed!" &c. Our facetious, and often very naughty contemporary, the *Mosquito*, begs hard that the Convention be allowed to slobber along yet a bit, as it supplies it with food for ridicule and laughter. It is a great shame to laugh at any institution of the country, and whoever can laugh at the Convention in its present palsied condition must be hard up for grinning matter. The Hole in the Mole is worth a dozen of it yet for creating a laugh or a broken shin now and then.

By the way, talking of the Hole in the Mole, we believe it will soon be all hole and no mole with it. The engineers say it is not strong enough even to support the hand tram-barrows which it is proposed to start, to carry passengers' luggage up and down. There is only one way to settle this irrepressible Mole, and that is to supplicate Santa Rosa to wash it away bodily next year. It is a long time since she did anything for poor South America, and she might do this: it is a mere trifle.

The Mutual Consumers Gas Company are now issuing new shares, giving the preference to holders of the original shares. List open all this month.

Does anyone care to read a most charming description of 'Beautiful Venice,' the 'Bride of the Adriatic' etc. if so let him drop into 'dear Daws,' the well known librarian, and buy the last number of Harper's Monthly; he will sigh to be on the 'Bridge of Sighs' before half through the chapter.

There are seventy-two 'Bibliotecas Populares' now in the Republic, and more are in process of foundation.

Through parties just arrived from Bahia Blanca we hear that things are looking well in that quarter, and that the harvest prospects are good.

The Gowland tramway to Flores by Calle Independencia and back through Europa will be commenced at once, all the materials having arrived last week from England.

The news from Cordoba is bad: fever and dysentery are spreading rapidly in

the town, and the weather is very dry and hot.

The famous 'Expedition to the Desert' is again spoken of and the Sociedad Rural is said to be looking up horses for the movement. The whole thing is a farce and can lead to no earthly good, while millions of the public money will be squandered on it. However, there seems very little chance of its ever being carried out.

We learn from New York that an iron church was shipped from that city last month to Callao. It is composed entirely of iron, being 135 feet long by 65 wide, and comprises beside the main building, a vestry, dead-house, tower, steeple, belfry and altar. It is also accompanied by a fine organ, manufactured by Jardine. The entire expense of the contract amounted to $150,000. This is, perhaps, the first instance of the shipment of an iron church from that port. We expect from the States an enlarged and improved edition of our present gong in a month or two.

Listen to this, Mr. Posadas. On Saturday we were sitting at lunch (there was no liquor) in the Court with a friend from a camp town, when a letter was handed to us which the said friend had written and posted to us at said town, only 75 miles from Buenos Ayres, on the 11th inst. The occurrence of such delay is not uncommon.

The *Capital* of Rosario is about to enlarge its form, and next month will be printed on a sheet the size of *La Tribuna*. Congratulations, colleague!

The Municipality of Cordoba has taken the wise step of abolishing the hitherto irrepressible gold medal in its schools, and now gives 'diplomas of honor' in its stead. This is a step in the right direction. If the young idea is taught to like gold medals, the next generation of our public men will be madder than even their predecessors on the subject.

One of the prisoners in the Cabildo died of typhus fever on Saturday. He was only 14 years of age.

Who shot the dog? There is, or was on Saturday, a dead dog lying in the Policia patio. An editor who had business there was nearly asphyxiated with the smell. How is this Mr. O'Gorman? 'The nearer the church the farther,' &c.

Two new immigration agents have been appointed by the National Government, one for France, the other for Germany. Better send out the Greeks and Trojans in different vessels, otherwise they might fall in love with each other on the way out.

A favourite amusement amongst the 'jovenes' in Rosario just now is jumping on and off the tramways while they are going full speed; not merely getting in our out while the vehicle is moving, but plunging up and down a hundred times in a trip. Nobody pulverized as yet, but a fatal accident hourly expected.

The Electric Bell project, it appears, is going ahead, and the empresario is said to have signed a contract for the necessary apparatus. It will be recollected that the object of this enterprise is to connect every house in town with the Policia, by an electric wire, and so prevent 'jimiscation,' or at least catch the perpetrators.

Three madmen were sent to the Convalescencia on Friday. We will soon be as bad here as England and Wales in the 'cracked' way.

When are the crossings and steps leading to them in the 'tercero' streets to be set right? On Friday a STANDARD subscriber nearly broke his neck, both legs, and his little finger, while trying to descend the boulders called steps at the corner of Calles Cordoba and Florida, and in addition was nearly drowned. That corner is a disgrace to South America.

A train on the Boca Railway ran bang into a train car on Sunday, made "ragout" of it, injured a man and a boy inside, and frightened the d—l out of every one concerned. No undertaker required.

A distinguished financier was robbed on Sunday. The thieves walked coolly up stairs, rifled the house of jewelry, money &c., and on going out desired a little servant girl to inform her master that they would call again in an hour. The rascals were dressed like the most ordinary gentlemen.

WOOL IN THE MARKET.

Altamira, Mercedes, Nov. 16, 1872.

Dear Sirs.

I read with great satisfaction an article in your issue of the inst, entitled 'Wool in the Market' because it substantiates the views I hold on the same subject. The writer of that article knew what he was writing about. He said the buyer should be a judge of wool, yet how many buy wool from its looks or condition. Without caring so much for its intrinsic merits! Condition goes a great way now a days in our market, but it is a thing that can be obtained in the course of shearing to a great extent; not so the producing of wool A 1 and A 2 in the majority, and this is best and quickest obtained by selecting and rejecting animals that give weak and faulty staples.

It would surprize those who do not practice it, how soon a lot of wool can be made even in quality by this process, and, on the other hand, how soon the same wool can degenerate by taking out the young or best breeding sheep.

In a paragraph of your article "On 'Change" of the same date referring to sale of my wool you say that wool at $90 is a good business, and I add that any reasonable person ought be satisfied with it, and have a margin for the buyer to gain. Of course a good price is a good thing, and I came very near getting it this year, but when I came into the market wool was down and everything down on it. And to get over $90 (I got $91 as you said), and I might how done better at home, but to get this wool should have something more than good condition, and this the buyer knew and saw that mine possessed. This brings me to the end and gist of this subject. The same as in the article I allude, to judgment in the buyer, and intrinsic merit in the wool. Many of the North wools have this quality in an eminent degree, yet they rate second from "shrinkage". Be it so

I am Sir yours truly
NICOLAS LOWE.
Nov. 18th.

PS. Since writing the above my broker Mr. Duggan tells me he has just effected the sale of another lot of my wool at $90. Smart man Don Miguel! This lot of wool was in Mercedes yesterday! Here is quick dispatch owing to quality and condition in the face of a falling market.

ON 'CHANGE.

Nov. 18th, 1872.

Ounces	400
Sovs	122½
Pats	25
National Bonds	78¼

Monday is generally a dull day in stocks, and unless there are outside orders to fill, there is generally very little done in the ring. To-day there was nothing done in bonds save for the end of the month, and the little movement that was noticed on the opening of the market died off before the closing hour; still neither bonds or cedulas can be called weak, and the probabilities are that before the week is out the bulls will show an effort. Cedulas in large lots are in demand and not to be had. Much of the money coming out of the banks to pay for real estate finds its way into cedulas. 16,000 pats. have been taken from two of our private banks to pay for house property, and the seller of the real estate now calls for cedulas for a like amount: thus if anything we notice an upward movement in the Cedula market, 97 is the market rate, but for large lots 97½ is freely offered. The sales of bonds today were as follow —

For Nov. 30th 10,000 at 78⅞
Do do 10,000 78¾
Do do 10,000 78⅝

In the liquidation nothing whatever done,

Exchange ruled nominal to-day, in fact until the letters are received nothing will be done, some small transactions were effected on Saturday, but the rates are not stated,

Passengers from the rivers report a very severe storm in the Parana, and vessels greatly blown about. It seems that on Saturday or Sunday some boats were capsized in the harbour but the number of drowned is not stated, the corpse of a well dressed man was washed on shore to-day at the Custom House, and there was some flying rumour about a little steamer with immigrants having foundered but nothing more than a rumour.

Owing to the weather the auction sales yesterday were for the most part postponed. No attendance of bidders, Messrs Rodriguez and Larrazabal however held their great auction at Calle Santa Fe, and as is ever the case with these famous auctioneers, were most signally successful, the following are the prices.

he sale realised in all $2,175,000. The area was 3½ squares. The square on Santa Fe averaged 64 m/c per square vara, on Calle Arenales 26; and the chief buyers were: Moller, Zaavedra, Miro, Schmiter, Crossa, Etchegaray, Rossi, Perotti, Marupe, Amadeo, Dimet, Mason and Rodriguez. This auction sale was looked forward to with much attention, as there is great speculation going on in property thereabouts. The land was bought two years ago for $750,000 m/c.

Some of the vessels in the Roads have been blown about. The German barque Johanne is afoul of the American barque Lepanto.

The Liffey is looked for to-night in Montevideo. She entered Rio on 13th.

The French packet will be up in the morning —also the Rio de la Plata and Porteña.

A house in Calle Estados Unidos was sold yesterday for 175,000 m/c— 0x34, between Santiago del Estero and Salta.

Wool was sold in the South Market this morning at 102, and in the North Market at 90, as appears in our market reports.

The mails to day bring no confirmation about the Palestine's news of the Bank of England looking for a loan and the failures in London. Still, merchants must ever bear in mind that we never cook news, but give it as it comes. All the Rio papers and the Telegrafo of Montevideo give the same news, and also spoke of the failures, which we believe must have been unimportant.

This was a great day for news; telegram after telegram came up, and steamer upon steamer entered the Mount. The STANDARD telegram was the first in the city, but unfortunat ly with bad news about wool skins and tallow. Those who watched events expected this news; the whole wool business of this season so far has been a flash in the pan more than anything else, the wool came in too early and the speculators outside by offering prices higher than in Europe paralized market to such an extent, that already on deposits are the town filling up. The news about the Havre auction fell like a wet blanket upon the plaza, yet after all farmers and wool buyers have little to be astonished at, since the disturbance in the world's money market, consequent on the French loan must necessarily affect such a staple article as wool. Men sold their wools last week in the Plaza Once at 82, when a month ago they refused outside at their estancias 85, but were the buyers at such rates able to take up the wool? rather were they not preparing by every question as to delivery to defeat the obligation, thus the farmer who sold here in the open market at the fair market price, has in the long run done better than get entangled in a lawsuit, his wool embargoed, and all for a question of at most five paper dollars per ar; contract after contract has been thrown up, and wools keep coming into town that were bought outside, and are now resold by the growers. Except in very exceptional cases the best sales are always made in the open Plaza. Amongst wool men it is said that the purchases outside for account of a house here reach 350,000 ar., but there is the greatest exaggeration in this statement; well informed parties in both markets deny that any such purchases have been made by one party. The Montevidean wool market shows a sharp decline and far more wool has been contracted for over there than here. In Entre Rios also the purchases have been premature, and entail much loss. The arrivals of wool at the Plazas here are not so heavy, and so best; it will suit both farmer and barraquero to allow a slight pause, there is a good quantity already in to be moved off. Returning ease in the London money market will at once improve wool, and the club telegram says that there is no prospect of any further rise in he bank rate, which is after all a silver lining to this commercial cloud.

The storm of Saturday night was for this time of the year unusually severe, but the rain has proved in every sense a blessing. The scorched up crops again look blooming, and in all the wheat chacras about town everything now looks blooming. This wheat business is gradually gaining an importance amongst us; people study the European market reports with attention, and the review of the European wheat market, published in Saturday morning's *Tribuna*, attracted so much notice that every copy of the paper was bought up, and in the plazas nothing else was talked of. It seems beyond every question now that there will be a good surplus wheat crop for exportation next year; well, everything helps. We have consumers at our door—the Brazilians, for every bushel we can grow, as at present that market is almost exclusively supplied from the United States. In fact, much of the suburban speculation in real estate at present going on is based upon this theory. The buyers count on increased immigration and on lands at present used as sheep farms being devoted to wheat growing; thus, for instance, the fine piece of land bought on Saturday for $630,000 m/c., 570 squares, has been for many years held by the opulent Irish sheepfarmer, Mr. Robert Kelly. It now passes into hands that will turn the land into tillage, and so with most of those vast properties out by San Martin and Merlo. The plough is gaining at last the upper hand, and no fear for the future can for one moment be entertained so long as emigration flows to our shores.

The Provincial Government has passed a note to Mr. Huergo, C.E., ordering him to place at the disposal of the National Engineering Department the steam tug, the drag and the chata which are in his power. This settles the question in regard to the Riachuelo and Bateman port schemes. Mr. Moore, who represents Mr. Bateman, will now be in a position to at once begin his experimental work, and the River Plate public watches with immense interest the result. The National Government has furthermore named a board of inspecting engineers, whose duty it is to supervise the work as it proceeds, and has apportioned to them a fair salary.

At the Port Captain's, on Sunday, there was a good deal going on about the landing of the Palestine's passengers—102—the morning previous from the Montevidean steamer. It seems that these passengers escaped quarantine 'in toto,' as nothing was known about them until they were all landed and scattered through town.

Mr Ernest Landivar the real estate broker holds a portion of *Flores as his own*; since this indefatigable real estate man has gone out there, the suburbs in that direction have assumed a new value. Representing as he does some of the strongest moneyed families in the city whatever he buys they hold, the money is looked up as in a strong box and for a small piece of ground on the Flores road near Caballito, which he purchased some months ago at about 3500 m/c per vara, he now refuses 8000 m/c per vara by parties who want to build comfortable family dwellings thereon; the price he asks is 10,000 m/c per vara front, and wont sell under; the site is 70 varas on the street by about 68 depth, this shows the value of property in that direction. During the past week Mr Landivar has made the following purchases.

A site in the partido of Flores Calle Europa at the conclusion of Calle Independencia between the quintas of Messrs Cano and Neild, 40x228 for 150,000 m/c.

A site in the same partido 15 varas front on Calle Independencia with 300 deep, and 43 varas on the Calle de la Polvora with 140 fondo for 20,000 m/c.

A site corner of Independencia and Entre Rios 31½ front on Entre Rios by 40½ depth for 8500 m/c per vara front

Also a site 30 varas in Calle Paraguay near the Plaza Libertad by 40 depth for 450,000 m/c, purchased by the Society of the Ladies of charity of St. Vincent de Paul for the purpose of building thereon an institution.

Respecting the sale of two squares on the Gauna road for one million of dollars by Dr. Velez Sarsfield which we published the other day ther has been much said, but the sale has been made at the price mentioned, but on 3 years time, which after all is a no unimportant matter.

The works of the Eastern Argentine Railway are now pushing ahead so fast that soon the Engineers will be in Corrientes. The Prime-Minister last week in view of his has sent a note to the Government of Corrientes, advising of the fact, and requesting the Governor to at once take steps for the expropriation of the lands required by the company; things look pushing ahead in that quarter just now.

In this epoch of concessions and enterprizes it may amuse business men to hear that the Government of Corrientes has just granted a sweeping Telegraph concession to Messrs. Chacon & Co. to enable that enterprizing firm to lay down telegraphs between all the towns and villages of the province; where the business is to come from to keep these lines going no one in or out of Corrientes can discover.

Of the lucky purchases of estancia property in the River Plate probably the following stands amongst the first.

Mr. Parachu purchased not a year ago the splendid Maua estancia near Gualeguay for the round sum of 90,000 pats., already from the products of that estancia the buyer has paid 50,000 pats to the seller, and now with the new clip fat novillos &c he expects to pay the balance 40,000 pats., and remain with the estancia free, one of the finest properties in Entre Rios. This shows the result of good management backed up by good market prices.

It is rumoured that a long pending lawsuit has just been decided whereby a well known estanciero of the Guardia del Monte, has recovered seven leagues of estancia land in that partido, some of the finest lands thereabouts. The decision of the court gives the new owner right to sue now for rents.

The National Government has named Don Bernabe Ocampo in place of Don Manuel Ocampo as National Bank Director, and Don Bernabo has sent a polite note to the Government accepting the post.

The new budget for 1873 has been promulgated as law; it amounts to 25,565,825 pats., and the following is the estimate for the department of the Minister of the Interior.

1.	President's department	40,440
2.	Minister's office	29,340
3.	National Congress and Public Credit Office	500,188
4.	Post-office	334,715
5.	Telegraphs	197,640
6.	Engineers' department	58,860
7.	Patent-office	6,648
8	Statistical do	4,920
9	Agriculture	12,460
10.	Pensions	5,544
11.	Immigration	161,724
12.	Diligence subventions	60.000
13.	Contracts	42,000
14.	Public works	232,000
15.	Roads and bridges	152, 00
16.	Provincial subventions	225,000
17.	Coal mines	25,000
18.	Central Arg. R.R.	200,000
19	Sundries	20,000
	Total	2,307,479

A very large figure and showing the enormous expense of this department within the last few years. The table is, however, always worth having, and in more than one way may be useful for merchants to have.

Messrs. Mitre and Vedia sold by auction yesterday a piece of ground 400 squares, with house, trees, &c —in the 3rd cuartel, partido Ensenada, for 265,000 m/c. The official valuation gave 264,639: thus the price realised did not amount to the valuation. Still the land is well sold, being in the country districts, and not near the port.

The clearance of the mouth of the Riachuelo will be begun this week by Mr. Moore, Mr. Bateman's representative, and we may regard the port works as already begun, since Mr. Moore has commenced soundings.

Two lots in Calle Andes, between Parque and Corrientes, were sold yesterday by auction—10 x 30 each—at the rate of 3900 m/c per vara front.

Mr. Nicholas Lowe's wool arrived at the station this morning, and was sold then and there by Messrs. Duggan for 90 per arrobe. Another hit, Mr. Lowe.

The scene on the mole head yesterday was the talk of the brokers, some of whom happened to be down in that locality; such a batch of arrivals they never before witnessed. It appears that the arriva s numbered from 600 to 700, although according to the brokers over 1,000 came ashore. The subject was an agreeable one. All rejoice at this pouring tide of new hands into the country; nevertheless, wages show no diminution, and hands are as scarce as ever; when the heavy works projected are commenced there will be immense employment. The port scheme when thoroughly taken in hand will require 1,000 hands, whilst the city drainage and pavement will call for 2,000; and to these we add the extension of the Great Southern Railway to Dolores. New hands are, therefore, in every sense a boon, and the back bone of our present progressive prosperity hinges on the steady flow of immigration.

Mr. Sassenberg, who has such a wide circle of friends in the River Plate, will return next month; also Mr. Perry and Mr. Oldham, manager of the Montevidean Telegraph Company.

The Prange estancia wool is being shipped, and will not be sold here. The Drabble wool, from the Banda Oriental, has been taken again this year by the house of Perry, but the price is reserved.

Internal Debt	53¼
Rescate do	88¼
Fomento Territorial	13⅛

The steady rise in the second series of Internal Debt may be considered another good sign for the future, as indicating a belief that the elections of the 24th inst. will pass over peaceably and that, whatever be their result, the tranquillity of the Republic will not be interrupted. There was a transaction to-day of $10,000 in this stock at 53¼ for end of the month. There was a sale of $15,000 in what is termed Redemption stock, at 88½; and the Fomento Territorial seems brightening up, there being two sales (30 shares) for cash at 13½, besides 60 shares for Monday at the same rate, and 30 disposable up to the 30th inst. at 13¾.

The lull in the produce market is pending the arrival of the French packet, hourly expected, with two days later news from Lisbon. Meantime the transaction rumored yesterday is confirmed to-day, of 20,000 arrobes or 600 bales of Entre Rios wool at Gualeguaychu, the price of which is now ascertained to be 34 reals f.s. Another lot of 10,000 arrobes, Oriental wool, is spoken of, but nothing positive known. It is stated that a small lot of 3,000 arrobes is done at 42 rls.

Although it is not possible to ascertain the entire amount of exchange passed during the fortnight it is believed that the Blackboard is rather under than over the mark in putting down £218,000, of which £170,000 on England, at 51½ to 52½ for England, and 5.58 to 5.62 for France.

The Fenelon auxiliary screw steamer, 44 days from Havre, brought 168 passengers. She is not to be confounded with the new Havre line, of which the pioneer steamer Belgrano is hourly expected; belonging to a French company. The French packet Gambia, from Bordeaux, is also due, having left that port on October 20th (27 days); she was expected in Rio Janeyro by the 12th. The Norden, from Hamburg, entered Rio on the 9th, and may be looked for this evening; she is said to bring Lisbon dates to October 1st, or one day later than the Palestine, but the Rio papers give only the news brought by the latter steamer. The Norden was to leave Rio on 11th for Montevideo, and the Liverpool steamer Tycho Brahe was expected to arrive from England same day.

The brig Unione from Antwerp has brought a cargo of railway iron for Paysandu and goes on to that port.

No particulars are known about the Senno nground on the English Bank; it is likely tugs have been already sent to her aid.

The gunboat Pri is believed to be still at the scene of the Tacora wreck although the steamer has gone to pieces. The schooner Luisa Argentina entered port last evening with 175 boxes and bales of recovered goods. Mr Nebel continues to sell the recovered cargo, and all the 'tiendas' in town have now long streamers from their roofs, windows and shop-fronts; the owners are drying the wet prints and calicoes they have bought. As import business is rather dull at present it is observed that English merchants attending this auction wear very remarkably long faces.

The goods of the fugitive almacenero Diaz Machado, who escaped some days ago from his shop at the corner of Rincon and Cerro, will be sold by auction on the 19th for benefit of his of his creditors. The shop was known as the Luso-Platense, and besides the counter there is a glass press.

Next Monday Capt. Wagner and the German Consul will sell by auction the hull of the schooner Diamant at the Aguada; one would think she could easily be got afloat, being very light and now entirely dismantled; 133 tons and copper fastened. The sale will be at Sivory and Schiaffino's barraca.

Next Tuesday the German Consul will open proposals for discharging 300 tons of roman cement from the F.R. Dumas, which has a mixed cargo of 1650 tons, and needs repairs.

Next Wednesday there will be a sale of 6,000 sheep and a graseria belonging to an estancia in Durazno.

The meeting to consider Waring Brothers' proposal for 800 miles of branch railwars will be held on the evening of the 20th with whatever number of shareholders may assist

The auction by Mr. Nobel of 6 lots of ground near the Solis Theatre in dispute between Mr. John Mitchell and the Government was not completed on Thursday; three lots Calle Cerro were sold, and the other 3 on Calle Camaras will be put up next Thursday.

Some old residents waited on Major Munro, H.M. Consul, to congratulate him on his return from England: he looks all the better for his trip.

Messrs. Herrera-Eastman publish a notice that they allow 6 and charge 15, on accounts current deposits at 3 months 7 per cent. and at 6 months 8 per cent.

Mr. Franken Palmer is trying to sell the tugboat Sol, built in England in 1869: she is 103 feet long by 18 beam, carries 100 tons, draws 4½ feet, steams 8½ miles, and burns 2 tons of coal in 24 hours.

A sale of Cadiz salt is noted at 7 reals aboard.

Messrs. Lumb Brothers have opened new and handsome offices at 35, Calle Solis, close to the STANDARD Office.

Mr. Proudfoot was to leave England in the Pacific steamer of October 20th.

A free trip to Santa Lucia to-morrow is spoken of in some of the papers.

SAVINGS BANK

BANK MAUA AND CO.

101--Calle Cangallo--103

BUENOS AYRES.

The immense advantages of Accounts Current is now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Mercants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need illness, or old age, instead of spending them in immoral gambling, in lotteries, and other rivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, will offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM

CONDITIONS.

First--The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upward.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

The Company Insures against Loss or Damage by Fire, Private Dwelling-Houses, Goods Deposited in Specific Warehouses of stone or brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores.

The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following—
1st. Security.
2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and
3rd. The purchase of these advantages at a moderate rate.

It will be found that all these are presented by this Company to the Public in an eminent degree.

The Company's large Capital, under the immediate management of the Directors of the Establishment, affords perfect security to the Assured while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.

It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a power of Attorney enabling them to settle at once any Losses that may occur from Fire, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

LA ESMERALDA

One of the finest Estancias in the BANDA ORIENTAL.

GENERAL
DESCRIPTIVE PARTICULARS.

It is situated in the Department of Mercedes, two and a half leagues square, watered by several deep and rapid streams—the rivers Sarandi, Biscocho, and Palmidas. There is a fine carriage road to Mercedes, only six leagues distant, and very soon the Fray Bentos and Montevideo Railway will pass the spot.

House and Grounds.

The Estancia House stands on a gentle eminence, with a commanding view of the whole estate and neighbouring farms. It is built in line with ten rooms. There are two out-houses sheds, corrales, horse and cattle do., and a large quinta well stocked with fruit and flowers. Several acres adjoining the house have been wired in for meadow and tillage lands.

Puestos.

Five Puestos built in brick and mortar with shingle roof, two large rooms each.
Three do., wood and thatched.
The best and most improved agricultural machinery.

Graseria.

A complete establishment worked by steam and capable of boiling down 300 sheep per day.

Stock.

15,000 fine sheep (the wool has always fetched top price.
100 fine milch cows.
250 " fame brood mares.
100 pigs, English breed.
30 horses, many of good draught.
2 horse carts and harness.
2 bullock-carts.
12 oxen (draught).
1 family break, the most stylish turn out in the country.

The coming clip has been sold at 41 rls per arr., and this splendid country is secured no matter how much the market may fall.

NOTICE TO SHIPOWNERS.
AND
SHIPMASTERS.

The Marine Railway at Colonia being in working order, public attention is called to the following Tariff of Charges, a deduction of 25 per cent. having been made since the 1st of July, 1871:—

Sailing Vessels and Steamers of over one hundred [100] tons; English or American builder's measurement, will pay a rate of seventy-five (0.75) cents per ton gold, for being taken up. Each nominal horse power of engine in steamers, will be charged for as an additional ton of measurement.

Sailing Vessels or Steamers, whose entire registered tonnage and horse power of engine does not equal one hundred (100) tons, will pay the rate of one hundred [100] tons.

All cargo will pay one dollar, twelve and a-half (112½) cents in gold, per ton, for being taken up, and the regular rates for laying on.

For laying on the Railway, from the hour the Vessel or Steamer is properly up, for each twenty-four (24) hours, fifty-six and a-quarter (56¼) cents. per ton, in gold, and any twenty-four (24) hours entered upon will be charged as a full day.

Vessels and Steamers must be provided with sufficient crew and lines while being moved into or out of the cradle.

Wrecked Vessels or Steamers, whose bottom are broken, will not be taken at the regular rate but must make an especial agreement with the Company's Agent at Colonia.

No charge will be made while laying on, for Sundays or stormy days, when no work can be done below the load line of the Vessel or teamer.

Railway Bills must be cashed, or acceptably provided for, before the Vessel or Steamer will be launched, and any detention of the Railway for the settlement of Bills will be charged at full rates.

A fine Machine Shop, Blacksmith Shop, and Brass Foundry connected with the Establishment. Machinists, Boiler-makers, and Shipcarpenters always on hand; and Shipowners will find it to their advantage to have all their work contracted for at the Dock.

The Company have immense Barracas ready for the storage of cargoes, with Wharves, Launches, &c.
